

## Now it's easy to recycle single-use GlideScope® products

As more than 5 million tons of medical waste is disposed of annually,<sup>1</sup> we're very aware of the impact single-use medical devices can have on our environment. That's why we've partnered with **Sharps Compliance's TakeAway Recycle System** to help divert waste away from our landfills and oceans.

By keeping single-use devices out of the landfill, we are providing the best of both worlds to our customers — reducing cross-contamination AND less waste for our planet.

### The single-use products below can now be recycled

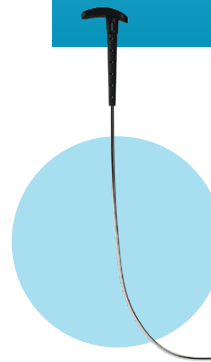

SPECTRUM™ SINGLE-USE VIDEO LARYNGOSCOPE

SINGLE-USE GVL® STATS

BFLEX™ SINGLE-USE BRONCHOSCOPE

GLIDERITE™ SINGLE-USE STYLETS

### Easy to set-up

Simply contact Sharps Compliance, the administrator of this program at **832-332-5926** or via email at **rwatson@sharpsinc.com**

Visit the Sharps website at **sharpsinc.com/recycle-sud** for more information.

Program is currently available in the U.S.
